TIPS TO MAKE AMAZING CARDS

1

Use a score board and a bone folder to achieve burnished, crisp, accurate and straight folding lines

2

Add dimension and height to embellishments with foam tape

3

Use punches and die cut machine to cut simple shapes from scrap paper. Use those paper shapes to embellish your cards.

4

Make your cards more fun and exciting by changing the way you fold them

5

To create a darker appearance on patterned or colored cardstock, clear emboss a sentiment after stamping. In doing so, the letters appear darker and thicker

6

Use a black marker to add a thin border around die-cut pieces. Doing so helps light colored pieces to stand out against light backgrounds

7

To avoid wrinkles use double sided tape for lightweight paper and wet glue for thicker paper

8

Make your text interesting, fun and whimsical by adding different fonts and color letter stickers

9

Embellish the inside of the card and the matching envelope to create a professional and exclusive set.

10

Create new and exciting card shapes like a circle, heart, arrow, flower and oval
